2	—	31
6	Platonic solids	32
7	Inscribed tetrahedra and cubes	38
8	Classification of Platonic solids - proof	42
9	Regular figures in higher dimensions	48
3	—	51
10	The bare minimum for orientation	52
11	Fixed-point sets	56
12	Naming rigid motions	59
13	Hyperbolic space	71
4	—	73
14	Motions fixing a point in \mathbb{R}^2 - proof	74
15	Motions fixing a point in \mathbb{R}^3 - proof	76
16	Composition of rotations	83
5	—	85

CONTENTS

CONTENTS

17 When must isometries be equal?	86
18 Abstract properties of symmetries	92
19 Symmetries of the equilateral triangle	93
6 –	99
20 Groups	100
21 Isomorphisms	103
22 Order. Cyclic groups	105
23 Permutations	108
24 Notation for permutations	110
7 –	115
25 Subgroups	116
26 Generators	121
27 Cosets	123
28 Divisibility of order	125
29 Right and left multiplication	127
8 –	129
30 Symmetries of the cube	130
31 Subgroups of the cube group	134
32 Product relationships among Platonic groups	138
33 Conjugate elements	140
34 Conjugate subgroups	146
9 –	153
35 Homomorphisms	154
36 Normal subgroups	158
37 Quotient groups	160
38 A quotient of the cube group	163
10 –	167
39 Group actions	168
40 Orbits and stabilizers	170

CONTENTS**CONTENTS**

41	Group action vocabulary	176
11	—	177
42	Transpositions and parity	178
43	The alternating group	182
12	—	185
44	Point groups	186
45	Point groups - exceptional	189
46	Point groups - axial type	198
47	Frieze groups	208
48	Point group theorems	212
13	—	213
49	Pyrite	214
50	Pyrite - preferred planes	218
14	—	225
51	Factoring isometries into reflections	226
52	Factoring isometries into rotations and translations	230
53	Completing the classification of proper motions	232
54	Proper motions of \mathbb{R}^2 - proof	233
55	Proper motions of \mathbb{R}^3 - proof	236
15	—	239
56	Isometries as linear maps	240
57	A finite group of isometries of \mathbb{R}^n fixes a point	243
58	Semidirect product structure of $\text{Isom}(\mathbb{R}^n)$	246
16	Appendices	253
59	Involutions and reflections	254
60	Quaternions	255
61	Metric spaces	256
62	Ten types of motion of \mathbb{R}^3	260
63	Opposite pyritohedra	263

CONTENTS**CONTENTS**

64 Exercises in search of a home	264
17 Bibliography	271
65 Books	272
66 Articles, blogs, and references	273
67 Software and visualization	275
List of figures	277
Figure credits	285
